Embed a Drexel Libraries Library Guide into Your Blackboard Course Shell
Step 1
Make sure Library Guides tool is available under Tool Availability.
Step 3
Under Build Content, select Library Guides
Step 4

Fill out the information as you would like, then click Submit.
Step 5

Your course should now include an empty link for a Library Guide. Keep going to map it.
Select content for your Library Guide from the available Library resources. If you have questions about what to include, please reach out to your liaison librarian or the librarian listed on the last slide.
Step 6, cont.

Select content for your Library Guide from the available Library resources. If you have questions about what to include, please reach out to your liaison librarian or the librarian listed on the last slide.
The Guide Page is optional. Don’t forget to click the “Embed Content” button!
LTI Launch Return

Success!
Step 7

The link is now mapped to a library resource and is active!
Step 8

When you click on the link, you will see two choices: Edit Selection will delete your current Library Guide mapping and you will be prompted to map to a new Library Guide. View Content takes you to the Library Guide – see example on next slide.
Health Sciences Resources

Clinical and research resources for medicine, nursing and allied health

Resources

Popular Health Sciences Databases
- AccessMedicine
- CINAHL
- ClinicalKey
- Cochrane Library
